

Rural Break-Ins and Thefts

In the last 10 days there have been a spate of Break-ins and Thefts to outbuildings, garages and barns in the Tiverton and Crediton area. These have been overnight and a vehicle must have been used. Chainsaws and Strimmers are the targeted property. Many items were taken from unsecured or open buildings.

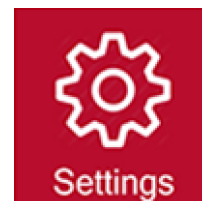

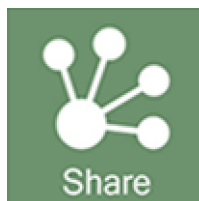

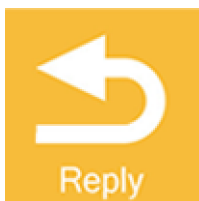

It is highly possible the South Molton area will be in the sights of these thieves. Please consider your security, let's make it difficult for them.

If you think a crime is in progress then don't hesitate to call 999.
